

## YikeBike in Colours!

Dear YikeBike Fan,

The YikeBike is now available in a radiant range of colours - sure to turn lots of heads See the full range [here](#).

We have also made the YikeBike available in selected additional countries in Asia, South America and Middle East. You can click [here](#) to buy.

## Feedback

We continue to get great feedback from our customers:

"I am having a great time riding my YikeBike as it works well in our City of North Vancouver urban environment. Being so portable, the YikeBike is easily used with our public transit system of buses, SeaBus and SkyTrain to get me around our Metro Vancouver region. It is certainly turning a lot of heads and I feel like a celebrity whenever I stop. Riding the YikeBike fits into my philosophy of being more sustainable and reducing my carbon footprint."

**Mayor Darrell Mussatto, City of North Vancouver**

"Three weeks ago I received my YikeBike and I can only say "amazing". After about two or three hours of practice, you start to enjoy it and would like it never ends the battery. Congratulations on making a product as innovative and effective"

**Martin, Barcelona**

"...break out the credit card and get ready to have some fun."
